PARKING PERMIT RATES, CITATION AMOUNTS, LATE FEES AND IMMOBILIZATION FEES FOR 2014-15

Background

Regulations 9.0030R I.(1) and 9.0070R I.(1) state that the Board of Trustees annually approve the permit rates, citations amounts, late fees and immobilization fees for parking operations.

Current permit rates, fines and fees for parking functions are sufficient to cover operational and capital expenses as well as debt service and no changes to the rates are required for 2014-15.

One change to the 2014-15 parking permit program that is recommended is to increase the price of daily permits purchased from the parking booths from \$3 to \$5, and to reduce the price of daily permits purchased from the pay & display dispensers from \$3 to \$2. With the daily permit fee currently at \$3 for both the core of campus and the discount lots, there is no financial incentive to park in the discount lots. By creating a \$3 price differential it is hoped this will motivate more patrons to park in the discount lots rather than the core, allowing more core spaces to be available for annual/term Premium permit holders.

The only other recommended change is to add a fee for the late payment for a parking permit. Beginning Fall 2014 students will be able to defer payment of permit purchases if they select to place the charge on their student account. The late fee would be assessed in those instances when the deferred cost of the permit is not paid in a timely manner, similar to other late fees assessed on student accounts when other charges are not paid.
